The National Institutes of Technology (NITs) are autonomous public institutes of higher education, located in India. They are governed by the National Institutes of Technology Act, 2007, which declared them as institutions of national importance alongside Indian Institutes of Technology. These institutes of national importance receive special recognition from the Government of India.

Important: NIH requires use of the Research Performance Progress Report (RPPR) for ALL Type 5 (non-competing continuation) annual progress reports. NIH use of the PHS 2590 is restricted to progress reports for administrative extensions (Type 4s; e.g., SBIR/STTR Fast-Track Phase II application).

Instructions and Form Files for PHS 2590 - grants.nih.gov

The National Tuberculosis Indicators Project (NTIP) is a secure, web-based monitoring system that uses routinely collected surveillance data on individual tuberculosis (TB) cases to measure the performance of state and local TB control programs, help programs to prioritize improvement efforts and focus on key TB control activities, and track progress toward national program objectives.

Monitoring the Future is an ongoing study of the behaviors, attitudes, and values of American secondary school students, college students, and young adults. Each year, a total of approximately 50,000 8th, 10th and 12th grade students are surveyed (12th graders since 1975, and 8th and 10th graders since 1991).
