[EPUB] Architecture And Construction In Steel - ascentbc.ca

Iron and steel. The development of construction methods in iron and steel was the most important innovation in architecture since ancient times. These methods provide far stronger and taller structures with less expenditure of material than stone, brick, or wood and can produce greater unsupported spans over openings and interior or exterior spaces.

Architecture - Iron and steel | Britannica.com

At Daveâ€™s Architectural Iron, we believe nothing is more impressive than a beautifully handmade forged

wrought iron gate, a custom designed railing or an intricately crafted fence. Our expert craftsmen have more than 20 years experience working with cast iron, aluminum and steel.
