

architecture and town planning pdf

Architecture is both the process and the product of planning, designing, and constructing buildings or any other structures. Architectural works, in the material form of buildings, are often perceived as cultural symbols and as works of art. Historical civilizations are often identified with their surviving architectural achievements.

Chinese architecture demonstrates an architectural style that developed over millennia in China, before spreading out to influence architecture all throughout East Asia. Since the solidification of the style in the early imperial period, the structural principles of Chinese architecture have remained largely unchanged, the main changes being only the decorative details.

Jessica Kerr, Library Director commented, "This is a decision to take the next step in a continuing

process. Years of research, countless meetings, work of volunteers, consultants, community input, especially listening to those that use and rely on the Library, combined with learning from missteps along the way, has all gone into the Trusteeâ€™s decision.
