Active Listening and Reflective Responses One of the basic building blocks of communication--and one of the most difficult skills to learn and practice--is effective listening.

### **Teaching Note: Active Listening and Reflective Responses**

A good listener uses questions sparingly because questions tend to focus the conversation on the questioner's perspective and concerns and can derail the focus of the speaker. Work on asking fewer questions, and when you do, ask "open-ended" questions.

### **Good Communication Starts With Listening - Mediate.com**

The story is the most digestible, understood, and easy to retell communication medium in the world. A story is what really sticks in a listener's mind.

The mediating relationship of listener to environment through sound. (Truax, p12) What did the city sound like

100 years ago? or 300, or 500? Because of technology and human intervention, we have radically altered the soundscape. No more clacking horses hooves on brick, now it's the super heavy bass in surround-sound car radios.

### **using sound to explain and alter the phenomenal world**

â€œThe relationship between the physical stimulus and the phenomenal perception is not clear cut. The phenomenal world of the acoustic events of a listener is not necessarily that described by the physical properties of the sound energy. There is no sound pressure-variation that will always lead to one and only one perception.

### **Introduction - Thomas Ciuffo**

Whatever sense the listener makes of the work, whatever the listener experiences, that is the meaning of the work for that listener, whether novice or expert. This pragmatic view locates meaning within the individual listener, expressly in the listener's mental processes. By this definition, meaning must be evidenced in human perception and ...
