

body and astral body pdf

Astral body is a subtle body posited by many philosophers, intermediate between the intelligent soul and the mental body, composed of a subtle material. The concept ultimately derives from the philosophy of Plato: it is related to an astral plane, which consists of the planetary heavens of astrology. The term was adopted by nineteenth-century Theosophists and neo-Rosicrucians.

The practice of phase states of the mind is the hottest and most promising pursuit of the modern age. Unlike in the past, the notions of out-of-body experience, lucid dreaming and astral projection have already lost their mystical halo, and their real basis has been studied in minute detail from the most non-nonsense approach. Now, this phenomenon is accessible to everyone, regardless of their ...
