Charles Richard Drew (June 3, 1904 – April 1, 1950) was an American physician, surgeon, and medical researcher. He researched in the field of blood transfusions, developing improved techniques for blood storage, and applied his expert knowledge to developing large-scale blood banks early in World War II. This allowed medics to save thousands of lives of the Allied forces.

December 25th/Winter Solstice. As with Jesus, December 25 th and January 6 th are both traditional birth dates in the Dionysian myth and simply represent the period of the winter solstice. Indeed, the winter-solstice date of the Greek sun and wine god Dionysus was originally recognized in early January but was eventually placed on December 25 th, as related by ancient Latin writer Macrobius (c ...

After a baby is born and the umbilical cord is cut, some blood remains in the blood vessels of the placenta and the portion of the umbilical cord that remains attached to it. After birth, the baby no longer needs this extra blood. This blood is called placental blood or umbilical cord blood: 'cord blood' for short.
